

# Get It Right

Brendan James

Deep is the water under my bridge, flowing  
And short is the lifetime that I've lived, knowing  
Messing up and starting over again Maybe all the breaks  
And the young mistakes  
Were supposed to carry me here This time I gotta get it right  
Gotta get it right now  
Gotta get it right this time  
Lord knows I've let myself down  
Too many times, many times, yeah This time I gotta get it right  
Gotta get it right now  
Gotta get it right this time  
My life is passing me by  
Gotta take a deep breath  
And get it right Looking for answers what have I missed, someone  
I want to be so much better than this in the long run  
Stepping forward and falling backwards again When I get the breaks  
Will the young mistakes  
Be the ones to carry me on This time I gotta get it right  
Gotta get it right now  
Gotta get it right this time  
Lord knows I've let myself down  
Too many times, many times, yeah This time I gotta get it right  
Gotta get it right now  
Gotta get it right this time  
My life is passing me by  
Gotta take a deep breath  
And get it right I know I'll get there  
Things will get better  
Better with every day And what lies behind me  
Will not define me  
I tell myself nothing  
Can stop me now, stop me This time I gotta get it right  
Gotta get it right now  
Gotta get it right this time  
My life is passing me by  
Gotta take a deep breath This time I gotta get it right  
Gotta get it right now  
Gotta get it right this time  
Lord knows I've let myself down

Too many times, many times, yeah This time I gotta get it right

Gotta get it right now

Gotta get it right this time

My life is passing me by

Gotta take a deep breath

And get it right

And get it right
