Okay

Exit 159

used to think that I'd be something
used to think that I'd be someone
now that I care, now that I care
looking thru the window
as my face goes numb
it's a wonder I stay alive
it's a wonder I open my eyes
in the morning when I see you
looking thru the window
cause my face is numb
oh, it's finally okay
it's finally okay
even now I know I'll be okay
even now I know it's too much, too much
even now is better than yesterday
even now I know I'll be okay with you
okay
