

# Okay

## Exit 159

used to think that I'd be something  
used to think that I'd be someone  
now that I care, now that I care  
looking thru the window  
as my face goes numb  
it's a wonder I stay alive  
it's a wonder I open my eyes  
in the morning when I see you  
looking thru the window  
cause my face is numb  
oh, it's finally okay  
it's finally okay  
even now I know I'll be okay  
even now I know it's too much, too much  
even now is better than yesterday  
even now I know I'll be okay with you  
okay
