

# Slow Walk

## Mary Mary

dont miss this moment dont let it pass by you  
dont miss this moment dont let it pass by you  
time keeps moving and it never rewinds  
dont miss this moment dont let it pass by you tell me what you want tell me what you see  
where you wanna go what you wanna be if you have a dream  
you can make it there with a lot of work and a lot of prayer  
if you take your time gotta be precise gotta have a plan  
double check it twice wait, hold up, slow down still gon' need advice  
someones gone before maybe talk to them then  
after you do go and talk to him great is gonna come  
maybe not to night take your time today futures looking bright
