

Wicked Mystic (98 Reissue)

Annihilator

All throughout the centuries, existing year to year
Lives on this powerful entity to thrive on pain and fear
A derelict of heavenly gods, a feeling from within
Weakened minds are perfect prey, corrosion will begin
Some won't fight, the battle is forsaken
Show no might, the dark side has awakened
Even in the holiest the curious can be found
Their wonderment is dangerous as virtue is but bound
Moral codes, broken
What's the sin that lurks within, the burning emotion of hatred
Some won't fight, the battle is forsaken
Show no might, the dark side has awakened
Wicked mystic
Hatred lurks in all of us, no one is exempt
It's proof of evil in our souls, is this the tempter's intent
A derelict of heavenly gods, a feeling from within
Weak minds are perfect prey for corrosion to begin
Some won't fight, the battle is forsaken
Show no might, the dark side has awakened
Wicked mystic
Wicked mystic, mystic
