

Immaculate Misconception

Motionless in White

What the fuck?

Put your teeth to the curb, 'cause right now I'm gonna stomp your fucking face in
I hope you drown in all the cum you fucking swallow, to get yourself to the top
You're just a trend, just a fucking disease, How could you look at yourself in the mirror?

You stand for nothing and your heart is untrue

Every single thing about you's just a clone of the last you

All I want is to reach someone to say something that could change their life forever

To let them know they're not alone, you're not alone

So many people wanna see me fail,

So fucking clever but I'll spit in your face

I'll make sure you remember me If all these words you speak of meant a thing

I'd take back all the lines against you that I sing

But I know that there's nothing real inside

Your heart's invested in feeding everyone lies

I've seen so many of you come and go,

That's 'cause you're in it for all the wrong fucking reasons

You can't expect to live off of those lies and survive I am who I am, this is what we are,

I don't care if this offends you, or your worthless god

To all the kids who's letters I've receive

The broken hearted, the damaged just like me I will be your voice to let the world know we stand as one

We're standing right here so come and fucking get us

Open your mind before your mouth

Or come and fucking get us

Open your mind before your mouth

I'll be the end of your decadence If all these words you speak of meant a thing

I'd take back all the lines against you that I sing If all these words you speak of meant a thing

I'd take back all the lines against you that I sing

But I know that there's nothing real inside

Your heart's invested in feeding everyone lies

I've seen so many of you come and go,

That's 'cause you're in it for all the wrong fucking reasons

You can't expect to live off of those lies and survive I may not have built this kingdom but,

I'll make fucking sure that I protect it from you
