## LeToya

I wrote a song, wanna hear it, here it go  
I wrote a song, wanna hear it, here it go  
I wrote a song, wanna hear it, here it go  
I wrote a song, wanna hear it, here it go The perfect melody is my head  
I got a song that's meant for one thing  
I got the candles lit I'm rocking my lapearla  
Fit and pouring a glass of champagne See I've been planning  
The right time for me to tell you baby  
But it's better if I show ya  
Forget the radio 'cuz I already wrote I wrote this song, this song  
Specifically to make love to you  
Boy all night long, night long  
There ain't no hesitation on my part I wrote This song, this song  
Specifically to make love to you  
Boy all night long, night long  
There ain't no hesitation on my part I wrote This one's for me would you mind if I run it back  
I lay my head back baby while you handle that  
If you give me your best  
Then I promise you baby your next tonight I don't need to hear Kelis and Marvin  
'Cuz my body was already callin'  
forget about DeAngelo  
How does it feel boy, I already wrote I wrote this song, this song  
Specifically to make love to you  
Boy all night long, night long  
There ain't no hesitation on my part I wrote This song, this song  
Specifically to make love to you  
Boy all night long, night long  
There ain't no hesitation on my part I wrote A half an hour ain't nothing, I swear that I ain't through  
'Cuz I'm gon' keep on lovin', keep on lovin' you  
'Cuz you make me feel like a sho' 'nuff women, that's what you do  
And we don't need the quiet storm baby I wrote this song I wrote this song, this song  
Specifically to make love to you  
Boy all night long, night long  
There ain't no hesitation on my part I wrote This song, this song  
Specifically to make love to you  
Boy all night long, night long  
There ain't no hesitation on my part I wrote This song, this song  
Specifically to make love to you  
Boy all night long, night long

There ain't no hesitation on my part I wrote This song, this song
