## Make A Sound

## TC

I don't know if we'll make it home All we can do for now is hope I don't know if we'll make it home

Water all around could swell and wash us all away, awayAnd if we never set our feet on land again This will be one lesson I will not forgetAnd if you drown

> You wont even make a sound You'll just swallow water down

At the bottom you'll find out that it's quiet when you drownI'm losing track of all the days

Lost inside a life boat drifting out with all the waves, the waves

And some will find their way by looking towards the sky

And some will leave their fate up to these ocean tidesAnd if you drown

You won't even make a sound

You'll just swallow water down

At the bottom you'll find out that it's quiet when you drownAnd when you drown

You'll never even make a sound

And when you drown

You're gonna swallow water down

(Below)

The water gets so heavy
The water gets so heavy
(Below)

The water gets so heavy

The water's heavy when you drownYou won't even make a sound

You'll just swallow water down

At the bottom you'll find out that it's quiet when you drownYou'll never even make a sound You'll just swallow water down

At the bottom you'll find out that it's quiet when you drown
