Keep Me Out

Complete Control

I'm lost for words
And I'm standing by the edge
Why did we fall this way
So many people and I hear the same voice
Tell themsevles its okKeep me out of this...Convince yourself that
You'll never be for sale
And their fault with their pain
The price is high and
You'll never turn your back
Your in line just to payKeep me out of this...The stares will blur
When you bury it with guilt
And your face greys the same
The room was so cold when she said
No one will know
That its caught up to meKeep me out of this...Don't want this
No matter whats been said
Don't want you
To know that i'm so scared
So scared,so scared,so scared
That we're all the same
