

Baby Don't You Want Me

Lucero

When we first met
I'd count the days
I'd make excuses
Just to say your name
And baby don't you want me
Baby don't you want me I'd wait all night
For you to call
Well, don't you think of me at all
Baby don't you want me
Baby don't you want me And now I have a heart
It's like a hornets nest
It's swarming my in mouth
And busting through my chest
But I could live that way
I'd take all that pain
To have your heart be mine
Baby don't you feel the same
Baby don't you feel the same Another night away from home
Away from you it ain't easy I know
But baby don't you want me
Baby don't you want me And now I have a heart
Like a hornets nest
It's swarming in my mouth
It busted through my chest
But I could live that way
I'd take all that pain
To have your heart be mine
Baby don't you feel the same
Baby don't you feel the same It's gon' be a long ride home tomorrow
From Tennessee to Texas to LA
Well if I could I'd never leave you
I'd come home to stay
Girl I love you
Baby don't you feel the same And now I have a heart
Like a hornets nest
It's swarming in my mouth
It busted through my chest
But I could live that way
I'd take all that pain

To have your heart be mine
Baby don't you feel the same
Baby don't you feel the same
Baby don't you want me
Baby don't you want meBaby don't you want me
Baby don't you want me
