little angel

Emma Forman

You braved the storm and survived it
You've been the wars my friend
Life has often been so cruel to you
but one day this all will change
Oh little angel
Oh little angel
Your time to shine will come
Your time to shine will come
your time will come, it'll come
your time will comeYou've been the light in my darkest moments
I only wish I could be there for you
Don't give up sweet baby, life owes you a rich rewardOh little angel
Oh little angel
Your time to shine will come
Your time to shine will come
it'll come
it'll come
your time to shine will come
it'll come
it'll come
your time will come
