

Airports

The (International) Noise Conspiracy

We're all tired of flying in second class baby
Never ever navigating
Always have to be the one that's waiting
For a number in line We're all sick of, we're all sick of
Following that direction
And still, with your [Incomprehensible]
Pulling us around by the chain girl Gonna make you realize why
We should own our own airlines
Gonna make you wave goodbye We're all tired of
Tired of flying in second class
Can you feel this my brothers?
Havin' to wait for the process We're all tired of flying in second class baby
Never ever navigating
Always have to be the one that's waiting
For a number in line Gonna make you realize why
We should own our own airlines
Gonna make you wave goodbye Gonna make you wave goodbye now and forever
Gonna make you wave goodbye
'Cause we'll fly away, fly away Gonna make you wave goodbye now and forever
Gonna make you wave goodbye
'Cause we'll fly away, fly away Gonna make you realize why
We should own our own airlines
Gonna make you wave goodbye Gonna make you realize why
We should fly our own airlines
Gonna make you wave
It's ready, it's ready, it's ready, it's ready for you
