

# Shot Down

## Rhino Bucket

Turn the music up, turn the lights down  
Betcha can't go the distance  
It's the same old song  
I've heard it all night long Summoning up my resistance  
I did my time on the other side  
Just to please those around me  
But it's over now, I'm let loose  
It feels so good to be living free I thought I had the whole place wired  
'Til the man stood up and fired  
Shot down, it's the price you pay  
Shot down for behaving this way Make the music loud, turn the lights off  
I didn't take you of your mind  
Though the dress in white  
I know that you're a slew  
I've got no pity for your kind Anything you like, even with your wife  
Shot down, shot down  
I thought I had the whole place wired  
'Til the man stood up and fired Then the lights went dim  
Thought I heard someone scream  
Shot down, it's the price you pay  
Shot down for behaving this way Anything you like, even with your wife  
Oh, it's no crime to want to go to paradise Shot down, it's the price you pay  
Shot down for behaving this way  
Shot down, there's nothing you can say  
Shot down, I've been shot, shot down
