I Want It All

Arctic Monkeys

Blind faith, heartache
Mind games, mistakes
My sweet fireball
My sweet rigmarole
I want it all
I want it allOld dogs, new tricks
Can you feel it?
Space age country girl
Stone cold miracle
I want it all
I want it allAnd then suddenly it hit me
It's a year ago
Since I drank miniature whiskey
And we shared your Coke
Said ain't it just like you're kissing me
And then hit the road
Leave me listening to The Stones
2000 Light Years From HomeShoo-Wop, Shoo-Wop
I want it all
I want it all
I want it all
I want it all
I want it all
I want it all
