

We Can Make It Tonight

[Toto](#)

I'm counting on you
Gotta know, the time has come to follow through
Drive straight through the night
Just hold on, we can make it home before daylight
There's a voice inside you
And you know it can't be wrong
So break away from this pain, girl
We've held out much too long
We can make it tonight
If you give me the sign
And I'll be by your side
I've got the feeling it's right
We can make it in time
We can make it tonight
Fear nothing at all
Ya gotta know that nothing is impossible
The things I've seen with these eyes
Precious dreams that somehow you don't realize
