Take It from Me

[Emerson Drive](#)

You can't hide what you feel
It's in the words you don't say
When it's right and it's real, it shines through anyway
Go ahead see if you heart doesn't fall
You know it's already too late
Yeah, you just go on and you act nonchalant
I know what you need and I know what you wantIf you're wanting a love that's forever
Take it from me, take it from me
I know we could be so good together, take it from me
This is something we don't want to live life without
Believe me, I know what I'm talking about
I want to be with you and give you love that you need
Take it from meStop the wind, stop the rain, stop this thing if you can
Try to stop a runaway train
You'll see that it's out of our hands
Some things are bigger than both of us, baby
Sometimes you have to let go
Oh, and run with the feeling that brought us this far
I know who I am and I know who you areIf you're wanting a love that's forever
Take it from me, take it from me
I know we could be so good together, take it from me
This is something we don't want to live life without
Believe me, I know what I'm talking about
I want to be with you and give you love that you need
Take it from meTake me right now, take me into your arms
I know what you need and I know what you wantIf you're wanting a love that's forever
Take it from me, take it from me
I want be with you and give you the love that you need
Take it from me, take it from me
