

# Once We All Agree

James Blake

I'm so held back  
Removing every part that evaded love  
I'm so held back  
Removing every part that evaded love  
At this point I won't say what I have hurt is untruth  
But I wonder just how well, how well I suited in her youth, her youth  
And at this point I won't say what I have hurt is untruth but I wonder just how well, how well I suited in her  
youth  
And once we all agree  
let the life that we run free  
And once we all agree  
let the life that we run free  
Oh, meeting changes people in me  
At this point I won't say what I have hurt is untruth  
But I wonder just how well, how we'll I suited in her youth, her youth  
And at point I won't say what I have hurt is untruth but I wonder just how well, how well I suited in her  
youth.  
And once we all agree  
Let the life that we run free  
Oh, meeting changes people in me  
Oh, meeting changes people in me  
A little reminder to me  
A little reminder to me
