Caught You Dancing (12" Version)

Steel Pulse

You were standing there when I first laid eyes upon you
You were looking fair when I first set eyes upon youI was so scared to talk to you, yeah
You hypnotized me withThe music that you're dancing to
The music that you're dancing toMy lovely yes you've tricked me
My lovely you disowned meMusic that you're dancing to
The music that you're dancing toUnto you I went like a lamb right to the slaughter
One and one makes two I said happiness ever afterI should have known it was one big fairy tale, yeah
You hypnotized me withThe music that you're dancing to
The music that you're dancing toMy lovely yes you've tricked me
My lovely you disowned meMusic that you're dancing to
The music that you're dancing toI was so scared to talk to you, yeah
You mesmerized me withThe music that you're dancing to
The music that you're dancing toMusic that you're dancing, that you're dancing
Music that you're dancing
I caught you dancing
Music that you're dancing, that you're dancing
Music that you're dancing toHey hear me when I call
I I hey, I I hey, I I I
I I hey, I I hey, I I hey, I I I
I I hey, I I hey, I I hey, I I I
