

# This Time

## Carrie Underwood

Maybe it's the way the stars are aligned  
that's making me feel this way tonight  
maybe it's the words you let them said  
maybe it's the star dust in my head

but i wanna tell you,  
that my heart is bursting at the seams, yeah,  
i can't wait another minute  
life is short  
love is sweet  
ain't no time like this time baby

Maybe it's the way that the night is still  
or the sound of the rain on my window sill  
it's making all the pieces fit  
making it all make perfect sense

but i wanna tell you,  
that my heart is bursting at the seams, yeah,  
i can't wait another minute  
life is short  
love is sweet  
ain't no time like this time baby

oooo yeah

it goes by so fast, can't get it back  
there ain't no time like this time

yeah i just wanna tell you,  
that my heart is bursting at the seams, yeah,  
i can't wait another minute  
life is short  
love is sweet  
ain't no time like this time baby  
my little baby

maybe it's the way that the stars aligned  
and there ain't no time, ain't no time, ain't no time like this time baby  
ooooo yeah

maybe its the way that the night is still  
or the sound of the rain on my window sill
