

Gamma Ray

Gamma Ray

The world's desperated with irony, hunger and corruption
The eastern world and the Africans, too
Are going to repeat the history of all wars And our industry supplied them with arms
Everybody knows but every, nobody can do anything against it
The fall of society is on the make Well, sometimes, sometimes I try to draw up a list
I try to find out what they have done
I thought of honorable murderers, you know
Like Jonah's hand might wrap around us
At anytime, everywhere in the world Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray
Made of your existence
Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray
Money and our failing
I've waited for to fire gamma ray Without body I could fly around the world
Destroying arms, destroying rockets
Mix all complexions of the whole human race
We all would turn to shallow people
Everybody, everywhere in the whole world Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray
Made of your existence
Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray
Money and our failing
I've waited for to fire gamma ray
[Incomprehensible][Incomprehensible] Without body I could fly around the world
Destroying arms, destroying rockets
Mix all complexions of the whole human race
We all would turn to shallow people
Everybody, everywhere in the whole world Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray
Made of your existence
Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray
Money and our failing
I've waited for to fire gamma ray
[Incomprehensible]
