

# The Present Tense

## Reflection

Living in the present tense  
When you lose the past  
The future makes no senseLiving in the present tense  
When there's nothing to blame  
No victim of consequence  
Living in the present tenseCrawling out  
Secure and confident  
Imbued with innocence  
Ready for the worldSuddenly  
The view was more intense  
Living in a different  
Kind of worldYou're living  
Living in the present tense  
When you lose the past  
The future makes no senseLiving in the present tense  
When there's nothing to blame  
No victim of consequence  
Living in the present tenseSomething is said  
It made me step outside  
The moment eyes pan right  
And left around my worldOpen yourself  
Up to the possibility  
Aware of some reality  
Outside your worldIn a silent universe  
The moment can be so real  
You almost can't stand itIn a distant universe  
Distracted from ourselves  
You can't help but wonderIn a crowded universe  
When the talking turns to noise  
You almost start laughingYou're living  
Living in the present tense  
When you lose the past  
The future makes no senseLiving in the present tense  
When there's nothing to blame  
No victim of consequenceLiving in the present tense  
When there's nothing to blame  
No victim of consequence  
Living in the present tense  
Living in the present tense
