

# Recall the Times

## Aquariums

Come on in and have a seat  
Sit back and listen you're in for a treat  
As your mind wanders to some other plane

We're born then we die  
In between multiply  
Till we suck all the energy,  
Suck all the life  
In this world and recall the times  
In our minds  
And say, "it'll get better."
