

Broken

krim

I wish I could push a button and make the pain all go away
I wish I had the magic words but I don't know what to say
I wish I could take the wasted years and throw them all away

And it might sound easy for me to say

You are going to find a way to fix what's broken

Fix what's broken

You say you like people with fire, but you don't like it when you get burned

Broke about a thousand hearts, now you don't like it when it's your turn

You wonder when you're going to figure out all the lessons that you need to learn

And it might sound simple for me to say you will learn someday that

All you need is love

All those big dreams that were so important, they don't mean anything now

All you need is love

All those hard times when people hurt you, they don't mean anything now

All you need is love

Love is all you need to fix what's broken

Love is all you need to fix what's broken

You turn sunshine into chaos everywhere you go

Now your girl has got a brand new life with a guy you used to know

She got tired of the drama you make when life gets too slow

And it might sound simple for me to say you will heal someday now

All you need is love

All those big dreams that were so important, they don't mean anything now

All you need is love

All those hard times when people turned on you, they don't mean anything now

All you need is love

All those happy endings that never happened, they don't mean anything now

All you need is love

Love is all you need to fix what's broken

Love is all you need to fix what's broken

Love is all you need

Now, enough is enough

Enough is enough

The time is going to come when you stop feeling sorry for yourself

Yeah, you were broken when you were young and you never got over it

You were damaged when you were young, and now you take it out on everyone

The time is going to come when you say that enough is enough

The time is going to come when you stop beating yourself up

Stop beating yourself up

Stop beating yourself up

The time is going to come when you see that all you need is love

 All you need is love

 All you need is lov, love, love, love, love, love

 The time is going to come when you see

 All you need is love

 All you need is love

 Love is all you need to fix what's broken

 Love is all you need to fix what's broken
