

# Remember You

## Venture

Walking down this hallway  
Do you notice me?  
Well I don't remember you  
Is everything so painful?  
Is all this make believe?  
I won't make it back to see again

(chorus)

Don't lend a hand, alone I stand  
Between the best and worst of man  
Just help these feelings fade from my mind  
And I remember you

Crawling through this dark maze  
Can you still see me?  
Well I won't forget you  
Is everything so peaceful?  
Make it all divine  
I won't make it back in time

(chorus)

Where have all the days gone  
Imprisoned all alone?  
Well I don't remember you  
Struggle just to stay strong  
It won't be that long  
Well I don't remember you

(chorus) x2
