

# It's Only Me

## Vertical Horizon

I am the blood  
I am the heartbeat  
I am the needle drawing me from me  
Separate vials for the vile I see I am the mind  
And I know what I know  
Fragments of pictures form my core  
All strewn about on this prison floor Watched on by secret eyes  
Hidden internal lies  
It's only me  
I get afraid of the dark sometimes  
I can't see  
When the light shines I find it's only me I am the flood  
And I am the cleansing  
Reckless and pure still unsure  
I got aimless precision I am the savior  
And I am my brother  
Holding me in locking me out  
Different room for a different doubt Watched on by secret eyes  
Hidden internal lies  
It's only me  
I get afraid of the dark sometimes  
I can't see  
When the light shines I find it's only me I am the blood  
I am the heartbeat  
I am the needle drawing me from me  
Separate vials for the vile I see Watched on by secret eyes  
Hidden internal lies  
It's only me  
I get afraid of the dark sometimes  
I can't see  
When the light shines I find it's only me
