Boogie Baby

Johnny Wright

How do you expect me, honey
To stand here so nonchalant
When the way you move your body
It's telling me what you are
You're a boogie baby, ain't no maybe
And you're driving me crazy, ooh tonight
It's just not fair, no
That look in your eyes when you smile
You're a liberated woman
But you still know how to use your feminine wiles
You're a boogie baby, ain't no maybe
And you're driving me crazy. ooh tonight
Woman, you are already a star

And what you're doing is tearing me apart
You'd better find yourself another man
If you're not out to tease
Cos this here man is looking to please
Lights flickering 'cross the floor
Making my light head spin
Or is it just you. you sexy lady
Winkin' my way again
You're a boogie baby, ain't no maybe
And you're driving me crazy, ooh tonight
Woman, you are already a star
And what you're doing is tearing me apart
You'd better find yourself another man
If you're not out to tease
Cos this here man is looking to please
