

Fairytale

Jon Walker

Don't
believe what you know
there's always room to grow
It wouldn't hurt to listen

I want to figure it out
and try to make it clear
It's everything you wished for
There's so much to live for

I don't wanna hear the same old song
I'd rather hear my favorite fairytale about the ones
the ones who would do anything they could
Life was always good
for them

We don't wanna stay
We don't wanna go
You don't know what you're missing

You know that you could be free
Just listen and see
It's everything you wished for
There's so much to live for

I don't wanna hear the same old song
I'd rather hear my favorite fairytale about the ones
the ones who would do anything they could
Life was always good

The sun will rise
because it always seems to know
what it was meant to do
The same should go for me and you

I don't wanna hear the same old song
I'd rather hear my favorite fairytale about the ones
the ones who would do anything they could
Life was always good
for them
