

# A Long Night My Love

## Cuff the Duke

Well I wish that I could change whatever happened to you  
It's not your fault I can't explain but I can hold you  
When you cry he has no ties  
He doesn't know what he's done  
That boy had no right  
That boy had no right  
It'll be all right, it'll be all right another long night  
My love...
