Beautiful Africa

Lyrics for Beautiful Africa by Medikal
tell them Africa is beautiful
tell them Africa is nice
thinking we're all about war
well i just want you to take my advice
you should know its a beautiful place
a whole lot of stories will get you amazed
CNN dy always dy try to disgrace
the think we living in trees in this place
WTF
tell them to stop making movies
that makes africa look like a war zone
for real we live in a happy place
there's nothing but love in our Ozone
the numbers keep coming like cell phone
i can show you who I'm dialing
talking to cousins on islands
mama's prayers keep on piling
sick of these hypocrites
all these books and they still be some illetrates
you pissed off take a walk and urinate
welcome to africa hommie lets jubilate
big ups to Kofi Annan and mandela
fela kuti shout outs to kwame nkrumah
â€œI come from beautiful africa (beautiful Africa)â€” Medikal

never beginning what you can never finish
they want to push my back to the floor
but I'm not into wrestling
AFRAP is the new limit

the game is a stubborn child but i can't disown
in flesh and bone
i came alone

i never ever throw in towels
without you and I i can never complete my vowels
i vow to make africa sexy

shout out to my homie Falz

they fly down here with cameras
capture the negative
