

Dragon (feat. Adara)

Shogun

I wanna see you breathe fire
Your heart is your armor
Let me see the dragon
I wanna see the dragon

You'll be standing when the smoke clears
No regrets, and no fear
Rise above the damage
(I wanna see) I wanna see the dragon

Breaks the walls of this castle
Fly straight into battle
I wanna see it, see it
I wanna see it, see it

I wanna see you breathe fire
Your heart is your armor
(let me see) Let me see the dragon
(I wanna see) I wanna see the dragon

I wanna see it right now!
I want your fire starts to grow
Running through your skin and bones
Make the magic happen
And become the dragon!
