

Strange Tidings

Albert Hammond, Jr.

Let's just wait here,
I got so confused,
But I left you in the morning when the news was ran the new. I won't go back again,
My hours are through,
And though she's on amends,
There's nothing we can't do. Watch what you say, if I'm guilty
I will pay
Watch how it goes, if I'm guilty
It'll show
So watch, what you say if I'm guilty
I'll walk away. I will wait here,
for an hour or two
Cause you left me in the bedroom, when there's
other things to do. Watch what you say, if I'm guilty
I will pay
Watch how it goes, if I'm guilty
It'll show
So watch, what you say if I'm guilty
I'll walk away. Controlling is,
So hard to fight,
I can't believe,
I've lost my mind,
I need you now,
I need you then,
On and on,
Where are my friends?
