Debauchery

Belial's Bride

Feel the infection spread as the yeast works its way through humanity. Every day Satan fucks your mind with desires for demonic suggestion. Strongholds built within you, creating inveterate patterns of living: Nourishing the hunger of deeply rooted demonic ideologies.
Conducive conditions are laid as we forsake spiritual integrity. The tradition of demons become the standard for human morality. The bride has adulterous bisexual relationships with Asherah and Belial. Violating the house of God with her drunken orgies.

Your children are Baal. Your fucking sons of hell. Sowing seeds of fornication with your idolatry. In your heart and homes, with all your heart and soul: Debauchery is engrafted into the fibers of existence.

The traditions of men, testament of witches. Join in the moon festivals of demon worshipping. The appetite of Molech is a burning desire. A drunken bride defiles her bed with the father of liars.

Engaging rituals of demonic possession: self-righteous masquerade of churchianity! Six days a week we fuck our lives with Satan. Seventh day we clothe ourselves with hypocrisy!

Forget about the call to holiness as you invite the hell of lawlessness. Nephilimic doctrines will entice with demonic ceremonies that fuck your mind.

The tradition of demons are design to enslave to the fourth generation with every lascivious plague. Perverted matrimony of diabolic lust: spiritual death living in every human's blood.

Eli, Ahab, Jezebel: Sale out the nations to the kingdom of hell. Complacent, spineless idolaters: Open the door, your mind for spiritual fornication!

The character of demons engrafted into your soul: Making you the instrument of Asherah and Belial. The deeds of your mind at work in your flesh: In time releasing the lethal dose to bring your spiritual death.

Desensitize! Desensitize! Desensitize!

History repeats once again as we surrender our souls to the aliens. Satanic fallacy is a venomous dopamine for the nucleus accumbens. Cunning serpents, angels of light rape your mind with desires to sin. Art of deception intoxicates the world with Lucifer's rebellion!!

Forget about the call to holiness as you invite the hell of lawlessness. Nephilimic doctrines will entice with demonic ceremonies that fuck your mind.

The traditions of men, testament of witches. Join in the moon festivals of demon worshipping. The appetite of Molech is a burning desire. A drunken bride defiles her bed with the father of liars.

Holy ambassadors forfeit their rights as heirs. The estate is overrun with iniquity. The house is left to you desolate. Reject the Holy Spirit for demons of debauchery.
