Forget the Facts

Pitchshifter

Forget the fact that you don't know me
'Cause there's nothing that you wanna know
Forget the fact that you won't show me
'Cause there's nothing that you wanna showForget the fact that I don't look like you
You keep singing "We don't change"
Forget the fact that this is nothing newForget the violence, forget the pain
Our happy meals will taste the same
Forget the scandal, forget the sleaze
We'll drag the real thing to it's kneesForget the violence, forget the pain
Our happy meals will taste the same
Forget the scandal, forget the sleaze
We'll drag the real thing to it's kneesForget the fact that I don't know you
When there's nothing that I wanna know
Forget the fact that I won't go too
'Cause there's nothing if I wanna go
Forget the fact that this is nothing newForget the violence, forget the pain
Our happy meals will taste the same
Forget the scandal, forget the sleaze
We'll drag the real thing to it's kneesForget the violence, forget the pain
Our happy meals will taste the same
Forget the scandal, forget the sleaze
We'll drag the real thing to it's kneesAnd then we'll smile as we devise a brand new peace prize
'Cash Back' euthanasia schemes, GM children low fat dreams
Jerry Springer crack cocaine, another black box another plane
Instant access to friendly fire, plastic bullets, green barbed wireForget the violence, forget the pain
Our happy meals will taste the same
Forget the scandal, forget the sleaze
We'll drag the real thing to it's kneesForget the violence, forget the pain
Our happy meals will taste the same
Forget the scandal, forget the sleaze
We'll drag the real thing to it's knees
