Rocket

YOHIO

Chasing shadows in the darkness
I've been lost for far too long
All alone
But now you're here to fill the spaces
Take of the locket
Just like a rocketWe gonna shot through the sky
And into the night like a rocket
Nothing breaks us
I am strong when you're here by my side
I feel alive and I know we're bound
For a new beginning
This is our time
Now that you're mine
Nothing breaks usYou said that we belong together
That I won't have to walk alone
All alone
I saw you gaze beyond the skyline
We gonna reach it
Just like a rocketWe gonna shot through the sky
And into the night like a rocket
Nothing breaks us
I am stone when you're here by my side
I feel alive and I know we're bound
For a new beginning
This is our time
Now that you're mine
Nothing breaks usThe stars all shine
As you walk by
They're raining down on us tonight
So spread your wings
And fly away
With me right now
OhWe gonna shot through the sky
And into the night like a rocket
Nothing breaks us
I am strong when you're here by my side
I feel alive and I know we're bound
For a new beginning
This is our time

Now that you're mine
Nothing breaks us
