Hidden Light

Alorion

Second chances and broken hearts
Are all you seem to see
With every guy telling every lie
You find it harder to believe
Just one more try
Before you tear
Your thoughts of love apart
So take my hand
And let me mend
Your broken, lonely heart

When cracked reflections
Are all that youâ€™re used to
And when every direction
Seems like thereâ€™s no one to turn to
Realize and understand
That this better, un-bitter man
Wants to take you as far away
From this deceitful, ungrateful land
Where your scars can simply fade
Where your smile can reappear
Where your life can emerge from Sorrowâ€™s shade
And you can finally learn to love without living in constant fear

Second chances and broken hearts
Are all you seem to see
With every guy telling every lie
You find it harder to believe
Just one more try
Before you tear
Your thoughts of love apart
So take my hand
And let me mend
Your broken, lonely heart

If only you knew
The brilliance that shatters
If only you knew
The perfection that breaks

If only you knew
That nothing else matters
When compared to your smile
When your smile takes place
If only you knew
Just what I would give
If only you knew
Just what I would do
And if only you knew
The love we could live
If only, If only
If only you knew

Just take my hand
And let me mend
Your broken heart
Your lonely heart

I hope one day I can show you
Just so you can finally see
I hope one day I can have the chance
To enlighten you
With the light in me
