Wild Roses

John De Sohn

Plant a seed and let it grow, yeah
You're my high when I'm feeling low, oh
Cause you're my love
Yeah you're my love
The only love I need
I let it grow
I let it grow
I let it grow, ah

We're like wild roses
Holding in the course for love
We're like wild roses
Open your heart for something
We're like wild roses
Holding in the course for love
We're like wild roses
Loneliness is over
We ain't stopping
There's no stopping us

And we run
And we run
And we run
And we run
The whole summer
And we run
And we run
And we run
And we run
The whole summer

? now let it flow, yeah
Running fast but I'm moving slow, yeah
Cause you're my love
Yeah you're my love
The only love I need
I let it grow
I let it grow

I let it grow

We're like wild roses
Holding in the course for love
We're like wild roses
Open your heart for something
We're like wild roses
Holding in the course for love
We're like wild roses
Loneliness is over
We ain't stopping
There's no stopping us

And we run
And we run
And we run
And we run
The whole summer
And we run
And we run
And we run
And we run
The whole summer
