

Till You Want Me

[Diana Degarmo](#)

Don't tell me you want me 'cause you don't, today
I woke up this morning knowing that I changed
That look in your eyes, what a surprise
To hear that you felt the same way
I want you till you want me
When I have you I feel empty inside
It's not what I thought, it's like I've been caught
Between the dream of you and the reality of me
I want you till you want me
You're ready to show me, where this all can go
But now that I've got you I'm not in control
'Cause I can figure this out, I'm so full of doubt
I just wanna to turn and run away
I want you till you want me
When I have you I feel empty inside
It's not what I thought it's like I've been caught
Between the dream of you and the reality of me
I'm getting over that we were once meant to be
'Cause when I see you I know it's like I just freeze
There's something about you that makes me weak
I want you till you want me
When I have you I feel empty inside
It's not what I thought it's like I've been caught
Between the dream of you and the reality of me
It's not what I thought it's like I've been caught
Between the dream of you and the reality of me
Don't tell me you want me 'cause you don't today
