Wishers

Twinemen

I'm standing among wishers and stalkers
who give the evil eye to laughers and talkers
and I've got to admit it - I want to I'm singing along
I'm one of your wishers baby - I wish I was a songAll the prettiest girls dance to be near you
I've got another admission I haven't come just to hear you
You sing desire over and over from here to dawn
I'd want to be stuck in your head if I was a songI, I wish I was a song
I, I wish I was a songA melody blue eyed greed
long and slow I would be the lullaby you sing
No tune in time no spoken verse no pages drawn
I feel like love and mercy if I was a song
