

# Battle's Won

## Halloween

Shoot down their legions, they die in vain  
Helpless against your advanced weaponry  
What they will get is their names on display  
Maybe a casket if there's funds left to pay these at all  
Left in the swamps bent over rocks  
That's the glorious take of their lives  
What they just got is eternal fame  
Rats and dogs devouring their sorry remains  
You made 'em suffer and pay their price  
Watched from far above them  
However their history has just been changed  
Their past is gone once more  
Stand tall, your battle's won  
All foes defeated, done  
And feats achieved with fate on your side  
Rejoice for evermore, victor to the core  
You excelled by all means  
Went on and on  
There's more dispatches for killing sprees  
Checking out grounds for the next genocide  
Greed for profit, advances being paid  
Tech shares soar, balance sheet rising up high  
Can you remember that hero we had  
Who bombed that lot to ashes?  
Ask his whereabouts, summon him now  
Employ that guy once more  
Stand tall, your battle's won  
All foes defeated, done  
And feats achieved with fate on your side  
Rejoice for evermore, victor to the core  
You excelled by all means  
Went on and on  
Stand tall, your battle's won  
All foes defeated, done  
And feats achieved with fate on your side  
Rejoice for evermore, victor to the core  
You excelled by all means  
Went on and on  
Stand tall, your battle's won
