

Side One

Pennywise

When you're all alone, you're on your own
This world is no place for the weak
We've gotta find our strength in unity
Strength in numbers is what we seek
Togetherness, friendship is best
No one can stop us when we all work as one
When problems come we've already won
'Cause we know whose side we're on, yeah
Come together and fight together
Unite together as one
We gotta come together and fight together
Fight forever till we have one
Camaraderie amity
It's good to know whose side you're on
Conviviality homogeneity
Together we can't go wrong
Togetherness, friendship is best
No one can stop us when we all work as one
When problems come we've already won
We know whose side we're on, yeah
Come together and fight together
Unite together as one
We gotta come together and fight together
Fight forever till we have one
Gotta come together and fight together
Unite together as one
Gotta come together and fight together
Fight forever till we have one
Go
Unity is the name of the game
We're a one in a million, we're all one and the same
Fighting we stand, united and rise
Coming together
Come together and fight together
Unite together as one
We gotta come together and fight together
Fight forever till we have one
Gotta come together and fight together
Unite together as one
Gotta come together and fight together
Fight forever till we have one
Go
