

# You Deserve Better

[Maria Mena](#)

At the end of the day  
I'm not proud of the way  
I just shut off myself  
And left you to yourself As I look back on, when we first met  
I feel guilty, I have regrets  
I wasn't kinder to your heart  
We never got our clean start And you deserve better  
No song nor a letter  
Can't make right all my wrongs  
Or rewrite what I've done I'll save me and you'll save yourself  
And we'll be better off with someone else  
Save yourself and I'll save me  
If you'll save yourself, I'll save me  
For us I, I fought myself  
Said I was sorry and, and sought help  
For every two steps, I took in life  
There was always one back, one strike If I was too much of a task  
Why'd you say that you would last  
You might've been there physically  
But you checked out early And I deserve better  
No poem nor a letter  
Can't make right all your wrongs  
Or rewrite what you've done I'll save me and you'll save yourself  
And we'll be better off with someone else  
Save yourself and I'll save me  
If you'll save yourself, I'll save me  
And we deserve better  
No song nor a letter  
Can't make right all our wrongs  
Or rewrite what we've done I'll save me and you'll save yourself  
And we'll be better off with someone else  
Save yourself and I'll save me  
If you'll save yourself, I'll save me
