Cruel Nights

Heart

Every night without you is more than I can bear
Moonlight can be torture when your love isn't there
I see you in the shadows I can hear you in the wind
I think of you and I can feel my world closin' in
I can't sleep I keep wishin' I could touch you
I'd be fine if I could make it through, through these
Cruel nights, cruel nights
Missing you, nights
What do I do, nights
Cruel nights without your love
Counting every minute, every minute feels like days
Feels like time is standing still since you went away
Always thought you'd stay forever, always thought that you'd be here
Now it's been a lifetime since I held you near
Days crawl by, I keep wishing they'd be over
But I know they're only leading me to, to these
Cruel nights, cruel nights
Missing you, nights
What, what do I do, nights
Cruel nights without your love
Cruel nights, since we've been apart

Cruel nights, it's been tearing up my heart
Cruel nights, since you?ve been away, baby, cruel nights
Oh, I just can't get through another night
Without you beside me, I need you beside me
I can't sleep I keep wishin' I could touch you
I'd be fine if I could make it through
Through these
These cruel nights, cruel nights
Missin' you, nights, baby
What do I, what do I do nights
Cruel nights without your love
Cruel nights, it's tearing me apart
Cruel nights, you're playing with me heart
Cruel nights, since you?ve been away
Cruel nights, well, well, well baby
Cruel nights, these cruel nights
These cruel, cruel nights

Cruel nights come home come home baby
Cruel nights, come home now baby
