

Mordirivial Dissemination

Hellwitch

crionic sleep
endless fathoms hold the past
soon unleashed
now our time to be his last
structured futility
man adheres to make a stand
reaching forth
bleeding hands of the damned seismic slaughter
obliteration just a step
exhaling will
radioactive death
neutronuclear
unafflicted unsurpassed
quantum voltage
feel it's strength amass
worldly time
hour zero marks the end
extinction
archaic evil now ascends
summoned savior
shrieking cries unto the lord
bruned alive the prince's planet now restored irradiated conjuration
upper cretaceous abomination neutronuclear world cremation
is it's mordirivial dissemination
oxidation
stone and steel become ash
global furnace
all is now the past
