

Flag And Finger

Marcy Playground

So where o' where do the revolutionaries hide
Have they all decided not to come outside
Give me a simple sign
To know if you're alive or dead
Just raise the flag and finger
And leave it there to linger
Yeah, this is my solution
This is my American Revolution
Let's take the condom off the microphone
'Cause there's no one to protect
And no you can't spread disease
Through profanities or your intellect
So I raise the flag and finger
And I leave it there to linger

Yeah, this is my solution
This is my American Revolution
Freedom is fragile
Like the freedom to speak out
The freedom to tell them
When to shove it where the sun don't shine
And we raise the flag and finger
And leave it there to linger
Yeah, this is our solution
And this is my American Revolution
Yeah, this is my American Revolution
Yeah, this is my American Revolution
