I Will Always Be There

Screeching Weasel

you keep on trying too hard to make
something work out
you're so afraid of your own loneliness
and doubts
i've had to stand by so many times while
you got burned
and i hope somneday you'll finally learn
that i will always be there
this isolation opresses it's bringing
you down
and you're still crashing and smashing
your head against walls
and if you're not really happy well
no one is
but i just hope you'll remember this
that i will always be there
