

# I Will Always Be There

## Screeching Weasel

you keep on trying too hard to make  
something work out  
you're so afraid of your own loneliness  
and doubts  
i've had to stand by so many times while  
you got burned  
and i hope someday you'll finally learn  
that i will always be there  
this isolation oppresses it's bringing  
you down  
and you're still crashing and smashing  
your head against walls  
and if you're not really happy well  
no one is  
but i just hope you'll remember this  
that i will always be there
