Erection

Makana

It's a scene from the movie
It's an aisle at the store
It's the view of a canyon
The sound of a swordIt's an orchard of peaches
Your wife in the shower
While you wait for appointments
Or as you walk through the park
Oh, uhh, oh, erectionYou know it's not only love dear
That can flip the switch up
You know it probably should be
Maybe god fucked it up
Oh, uhh, oh, erectionIt boiled up like a tower
A monument in the park
It's the cock of a rifle
A memory in the darkYou tried to keep it a secret
And now the world's gonna know
You tried for perfection
But then oh, uhh, oh, erection
Oh, uhh, oh, erection
