Water

Jack Garratt

Water, water wash
Water wash over me, cool me down
Cool me down
Water, water leave
Water leave through the valleys you wore down
Wear me down

Drown me in the water
Drown me in the sea
Lose me in the dark
Drag me to the deep
Let your water wash over me

Water, water rise
Water rise up and roll through the islands
Roll down the streets
It's short-lived, boys, short-lived, boys
Find a woman and dance through the moons like
Leave me the rain

Drown me in the water
Drown me in the sea
Lose me in the dark
Drag me to the deep
Let your water wash over me

Drown me in the water
Drown me in the sea
Lose me in the dark
Drag me to the deep
Let your water wash over me

Wash

Drown me in your water
Drown me in the water
Drown me in the sea
Drown me in the water
Drown me in the sea
Drown me in the water

Drown me in the sea
