

Doctor

Christopher

I keep having these headaches
These painkillers won't work
I feel a sharp pain in my chest, it's only getting worse
My vision is kinda blurred
It's hard for me to breathe
It feels like I've tried everything but there's no remedy
I need no doctor
I need no friends
I need no pharmacy 'cause there's no medicine
I need no nurses
I need no care
I only need to know that you will always be right there
I'm fully self-destructive
I need my daily doze
There's so much going on inside, I'm ready to explode
I'm staring on my window
Waiting for the car
You can call me crazy but don't think that I don't know
What I need, what I need
What I need, what I need
What I need, what I need
I'm turning to this liquor
I smoke a pack a day
Asking myself where the fuck did you decide to leave
They tell me that I've lost it
They say I'm in denial
They say you don't believe it baby tell me it's a lie
Ohhh
I need no doctor
I need no friends
I need no pharmacy 'cause there's no medicine
Ohhh
I need no nurses
I need no care
I only need to know that you'll always be right there
I'm fully self-destructive
I need my daily doze
There's so much going on inside - I'm ready to explode
I'm staring on my window
Waiting for the car
You can call me crazy but don't think that I don't know
What I need, ohhh, what I need, ohhh
What I need, what I need
What I need, what I need
What I need, what I need
It's an emergency

Someone please call 911
I need you to help me, someone came and took my heart
And if you find her, bring her back to me
She's the reason why I breathe, she got everything I need
What I need, ohhh, what I need
What I need, what I neeeeed
What I need, ohhh, what I need, ohhh
What I need, what I neeeeed
