Stay Out

Hit the Lights

I've been thinking, let's get out of this party and let's flee
These kids never meant much to me
I'll get is started, first shot is the hardest to deal withSo let's sober up on this drive home
Let's go some place where the cops will leave us aloneAnd we'll stay out all night 'cause rest is for the dead
So we won't stop, no, we won't stop
Raise your glass high and let's throw out a toast to the road
Wherever we go we'll hold friends close and never wanna go homeI've been hearing you've been talking to my boys all wrong
And giving us looks all night long
Get your coat, time to go, hit the road
You can find us hiding in headstonesSober up on this drive home
Let's go some place where the cops will leave us alone
'Cause tonight is like you and I so alive and too youngStay out all night 'cause rest is for the dead
So we won't stop, no, we won't stop
Raise your glass high and let's throw out a toast to the road
Wherever we go we'll hold friends close and never wanna go home
We'll never wanna go homeLet's break the bottles in well lit parking lots
I know it's not much but it's all I've got
We'll break the bottles in well lit parking lots
I know it's not much but it's all we've gotSober up on this drive home
Let's go some place where the cops will leave us alone
So leave us aloneStay out all night 'cause rest is for the dead
So we won't stop, no, we won't stop
Raise your glass high and let's throw out a toast to the roadStay out all night 'cause rest is for the dead
So we won't stop, no, we won't stop
Raise your glass high this is a toast to the road
Wherever we go we'll hold friends close and never wanna go homeTo the road
Wherever we go we'll hold friends close and never let them go
To the road
Wherever we go we'll hold friends close and never wanna go home
To the road
Wherever we go we'll hold friends close and never let them go
